

XLR-ADAPTER

XLR to Tascam DB25 Adapter

The XLR - Adapter is a simple unit that allows 16 XLR (M or F/TRS or combination of 8 ch) on DB25 Tascam connectors. This unit can be connected via DB25-DB25 (Magomi, Proco, Redco & others) to any product that supports DB25 Tascam/Fostex/Digidesign analog 8 ch standard pin out. The DB25 will match with standard DB25 to XLR or TRS breakout cables from third parts. Teknosign's XLR Adapters are of top quality to match your high end professional audio gear. All parts (e.i. XLR Neutrik Connectors), design and construction are carefully done to provide the best audio quality.
